# A lot of Styling going on in hair!

By Anya Catty and Samantha Sabatelli

If you don't know what Cosmetology is, it is the study of hair, make-up, and nails. Recently the cosmetology room was renovated. They now have vanity mirrors and seats in the front of the class to style hair, rows of hair washing stations and drying stations, and normal seats in the back for book work. They also have desks along the wall for hair and nails. Check out the pics below

## MUSIC ARTIST REVIEW:

### LIL TJAY

Writer: Anonymous Dribble God

"LIL TJAY" is a new upcoming artist from New York City. He is from the Bronx where rap originated from and it is also where I'm from. He is one of the many rappers nowadays who have become famous from soundcloud. He is mainly known from his song "GOAT" where he snapped (did really well) in the song. He is an African American male of the age of 19. I think he is a future star from New York City who possibly can compete for the spot of A-Boogie Wit Da Hoodie. My favorite songs from him are "GOAT", "Long Time", and "Brothers".

*"My best friend is having boy problems I'm worried for her.*

---

Dear concerned student,

The way to try and help your best friend through this rough time is let her know your willing to talk about what's ever on her mind ,ask her if there is anything you can do to help her ,if she refuses the help don't get upset or mad except it and give her some time to think about what's going on she might just need some time to herself to think about what she needs to do and her surroundings your best friend might not want to take your advice right away even though you might think it's the best choice for her, but sooner or later she may just stick by her side even at her worst to show how much you care and things may get easier for her.

*"How do you put someone down easy?"*

---

Dear Valued Student,

It's never easy to let someone down but the best way is to be upfront about it and do it as soon as possible. If you drag it out and let the person think that everything's okay, you'll start to feel suffocated in the relationship and when you finally tell the person, it'll hurt even more. You should always let someone down in person, if you can't, over the phone is good too. (Pro tip: Don't do it over text, it just adds salt to the wound.) Tell the person why you think it won't work out, there's nothing worse than a flimsy excuse. ("It's not you, it's me!") The longer you go without saying something, the more of a hassle it'll be letting that person down. Honestly, there's no easy way to let someone down, it's always going to be painful on both ends, but again: Do it in person and be honest with the person and yourself. This is the type of problem you can't ignore and hope it'll go away.

Wishing you the best of luck,

Aunt Tea
